Bird control solutions

DON'T IGNORE THE RISKS THAT BIRDS WILL BRING TO YOUR BUSINESS

Birds can pose a major stress to your business.

There are many business damaging consequences to consider when your premises are not protected against pest birds.

OPERATIONAL

- Necessity to stop production and even close the site
- Cross-contamination to foods
- Distressed staff and customers
- Loss of productivity

FINANCIAL

- Loss of revenue
- Spoiled stock
- Fines

HEALTH & SAFETY

- Birds carry bacteria and mites that can spread diseases
- Gutters blocked by nests
- Dried faeces drawn into ventilation systems
- Attract rodents and other pests
- Droppings are a slip hazard
- Food safety risks

BRAND & REPUTATION

- News of failed audits, accidents in the workplace and unsightly bird ingress spread very quickly via social media
- Portrays an image of an unsanitary business:
 - Fouling
 - Noise
 - Damage
 - Aggressive birds

On top of the inconvenience to you, your employees and customers, there are many cost implications for your business, from both a financial and reputational point of view, that you simply cannot ignore protecting your business against.

SAFETY

SAFETY IS ALWAYS AT THE FOREFRONT OF WHAT WE DO

Our team uses a strict safety methodology (RAMS) that ensures we work safely, especially when it includes working at height.

In all cases, we carry out a risk assessment, looking at the hazard and risk factors and who could be harmed and how. We also evaluate the risks, record them and continuously monitor and review the situation.

This step in our work is crucial to ensure our teams and yours (including employees, contractors and customers) are protected and safe at all times.

SAFE AND EFFICIENT END-TO-END BIRD SOLUTIONS

As market leaders in commercial pest control management, we understand what's important to your business, so we:

- **React quickly** to minimise the impact on your business.
- Provide a **value for money** solution that remedies threats and prevents risks.
