

MITIGATING COVID-19 RISKS

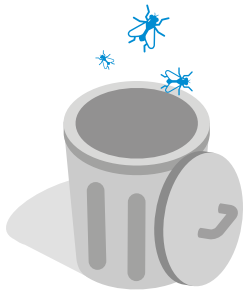

PROTECT YOUR RESTAURANT AND YOUR REPUTATION

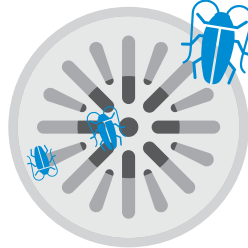

As businesses welcome guests to their facilities, Pest Elimination is especially critical due to heightened public sensitivity to cleanliness and increased social media activity. Under current conditions, a pest sighting is a risk your brand can't afford.

Ecolab Pest Elimination is at the forefront of ensuring the highest standards of food safety, facility safety, sanitation and public health. With our proven, science-based expertise, we are committed to helping you create a safe, healthy and pest-free environment.

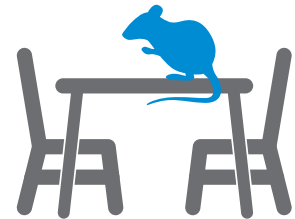

LEFT UNATTENDED, PESTS CAN QUICKLY INFEST YOUR RESTAURANT LOCATIONS

Flies impact food safety and are known carriers of disease causing pathogens.

Cockroaches spread bacteria and are associated with dirty, unsanitary environments.

Rodents are known to spread disease. They damage reputations as well as food inventory & building structure.

ECOLAB'S GUARDIANPLUS PROGRAM FOR RESTAURANTS

Our comprehensive programs are specifically designed to meet the needs of foodservice operations including full service, fast casual and quick service restaurants. Our GuardianPlus program is a bundled program that covers the most common pests found in full-service restaurants: rodents, cockroaches, small flies and ants.

ADDITIONAL SOLUTIONS TO HELP PROTECT YOUR RESTAURANT AND SAFEGUARD YOUR STAFF AND CUSTOMERS

ECOLAB DISINFECTION SERVICE

Ecolab's uniquely designed, short contact time disinfectants have been rigorously tested and EPA-approved for specific surfaces. Reliable service performed by highly trained Service Specialists.

ECOLAB RODENT CEILING SERVICE

The Ecolab Rodent Ceiling Service utilizes patented, award-winning equipment combined with regular service and Ecolab expertise to monitor and protect against rodent activity in ceiling areas.

ECOLAB PEST CLEAN OUT SERVICE

Ecolab's pest elimination experts provide focused clean out treatments to remedy established pest activity. This is particularly useful if your restaurant has been shut-down or operating at a limited capacity.
