

## INTELLIGENT RODENT MONITORING SYSTEM

# DATA-DRIVEN INSIGHTS & SERVICE FOR INTELLIGENT PEST ELIMINATION

Rodents can cause costly operational and food safety risks.

Gain visibility and greater control with a smart-device program that pinpoints rodent activity, pressure points and risk areas.

ruin raw materials

damage structures & equipment

contaminate finished products

**The INTELLIGENT RODENT MONITORING SYSTEM** Featuring Pest Insights Map Powered by **ECOLAB3D™** is a next-level approach to achieving pest-free environments. Tailored to your facility's unique needs, it enables **PROACTIVE & PRESCRIPTIVE SERVICE** for your facility.

### VISUAL INSIGHTS

- Data points are consolidated into highly visual, actionable insights
- Device activity, status and service detail documented for proof of regulatory compliance

### SMART, CONNECTED EQUIPMENT

- Sensor data is transferred to Ecolab's secure cloud
- Monitoring includes hard-to-access areas

### ONSITE & DATA ANALYTIC EXPERTISE

- Ecolab Intelligence Center skillfully monitors and delivers insights
- Your Ecolab Service Specialist is armed with data-driven insights to determine root-cause and target high-risk areas

WE ARE COMMITTED TO **A HIGHER STANDARD**

**ECOLAB®**

## PEST INSIGHTS MAP POWERED BY ECOLAB3D™ VISUALIZES DATA

- Consolidates data from connected rodent devices and other pest equipment
- Gives clear visibility of pest activity, trends & service
- Displays additional pest service data such as structural and sanitation findings
- Pinpoints exact location of equipment - interior & exterior
- Shows rodent activity recorded by date & time
- Highlights high-risk areas with activity heat maps
- Shares powerful trend analysis from connected rodent devices

## Ecolab Intelligence Center

The Ecolab Intelligence Center extends the power of your Ecolab Service Specialist by partnering together to give you confident protection.

- Delivers alerts and insights daily that **enable proactive and prescriptive service**
- Provides a **consistent approach to data and analysis** across your locations
- **System health monitored 24/7/365** by skilled team of experts
