

Pest Elimination for
FULL SERVICE RESTAURANTS

I CHOOSE
ECOLAB.

"Because **my**
reputation matters."

ECOLAB[®]

Everywhere It Matters.™

PROTECTING What Matters

“Ecolab understands how important it is to **keep pests out of my restaurant.**”

Effective pest elimination helps protect the things that matter most to your success.

GUEST SATISFACTION

- ▲ Provide a clean, pest-free experience to every guest

PROFITABILITY

- ▲ Control costs and get the most value for each dollar spent

REPUTATION

- ▲ Protect your personal and professional image

HEALTH INSPECTIONS

- ▲ Comply with pest and sanitary regulations

FOOD SAFETY

- ▲ Avoid negative publicity from a pest-related food safety incident

SUSTAINABLE SOLUTIONS

- ▲ Demonstrate good environmental stewardship in your community

GUARDIANPLUS™ by Ecolab

A PROGRAM to Protect Your Reputation

As the global leader in cleaning, food safety and pest elimination, Ecolab specializes in protecting the places where people eat, sleep, work, play and heal. You can trust us to always be there, Everywhere It Matters, bringing you more protection than any pest service provider in the industry.

GUARDIANPLUS™

MORE EFFECTIVE PEST ELIMINATION

- ▲ Science-based, proprietary service protocols deliver improved results

MORE VALUE FOR YOUR MONEY

- ▲ Bundle program covers the most common pests you face: rodents, cockroaches, small flies and ants

MORE SUSTAINABLE SOLUTIONS

- ▲ Most effective non-chemical solutions and technologies help improve safety and prevent pests

Your Ecolab Service Specialist is fully equipped and ready to address all pests, every visit.

"I know Ecolab will get the job done right and that's worth a lot."

Comprehensive Coverage. **PROVEN RESULTS.**

GUARDIANPLUS™ by Ecolab

One program to protect you against more pests.

What's included:

RATS AND MICE

- ▲ Sneak in through gaps around pipes and conduits, or under service doors
- ▲ Damage your structures, inventory and brand image
- ▲ Spread disease and contaminate food supplies

Ecolab Service Specialists regularly inspect for structural issues and follow an outside-in approach to keep rodents out.

COCKROACHES

- ▲ Harbor and breed in the tiniest cracks and crevices
- ▲ One pair can infest your restaurant with over 1 million offspring in less than a year

Ecolab's proven process flushes out and quickly kills cockroaches then treats harborage sites to keep them from coming back.

SMALL FLIES

- ▲ Feast near soda fountains and breed in drains
- ▲ Lay up to 100 eggs per day, quickly overtaking your operation
- ▲ Contaminate food inventory

Ecolab provides spot treatments during regular service visits and can advise on additional solutions if required.

ANTS

- ▲ Rapidly reproduce and expand into colonies
- ▲ Lay down a scent, attracting other ants to flock to the food source

Ecolab Service Specialist provides spot treatments for Garden Ants during regular service visits and can advise on additional solutions if required.

Outside-in approach and our perimeter protection help keep pests out of your facility.

Additional Program Options

LARGE FLY

- ▲ Flies breed around dumpsters, and then enter through doors and windows
- ▲ One housefly can carry 1.9 million bacteria

Exterior treatments and use of discreet, patented solutions help keep flies out of your restaurant.

These optional services are also available:

TERMITE ODOR EXCLUSION

Recommendations on sanitation and structure issues conducive to pests and action-driven reporting after each and every service visit.

Supporting Your Success **EVERYWHERE IT MATTERS**

Ecolab is always there, helping our customers at each and every location.

BE CLEAN AND SECURE

We help protect your reputation with more effective pest elimination to help you create a positive environment for employees and guests.

- ▲ Focus on **eliminating**, not just managing pest activity
- ▲ **Expertise** to prevent pests from jeopardizing food safety

PERFORM WELL

Our scientifically proven protocols, consistently delivered by highly trained Service Specialists, bring you more value for your money.

- ▲ Prevent costly damage through regular **inspection**, treatment and monitoring
- ▲ Address issues before pest problems occur with action-driven reporting and regular, personal **communication**
- ▲ Keep pests top of mind with professional **training** materials and on-site education by Ecolab

MAKE THE WORLD BETTER

We help protect the environment through continuous innovation to provide more sustainable solutions that reduce your total impact.

- ▲ **In-house research, development and testing** to introduce reduced-risk and low-impact solutions with improved efficacy
- ▲ Reduced product use by applying the **most effective, proven** chemistries with longer-lasting residual
